

Restaurant  
POS //  
for the  
BOSS! //

Petpooja

# Restaurant owners are **MAGICIANS**

# But your industry is under-going transformational changes, fueled by technology

**Changing nature of competition**

**New customer behavior**

**High volume low margin business**

**Juggling between multiple apps**

Delivery, payments, table reservations, QR ordering

**Cloud kitchens**  
driven by low real-estate costs

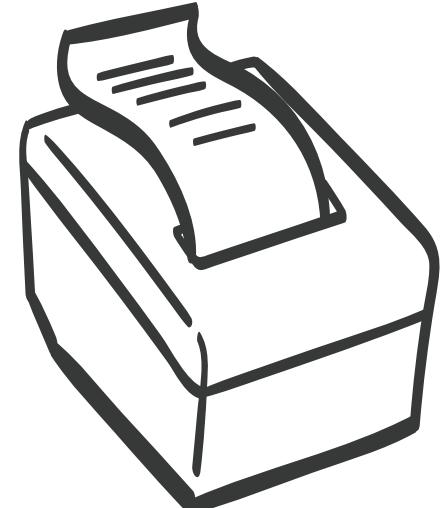

**Expects seamless experience**

takes no time to post negative review for bad experiences

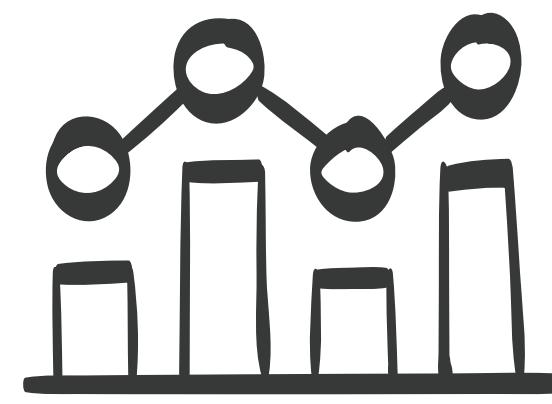

**Reduced Loyalty**  
Increasing number of choices

**Prefers Home Delivery over Dine-in**

# When you should be focusing on your **brand**

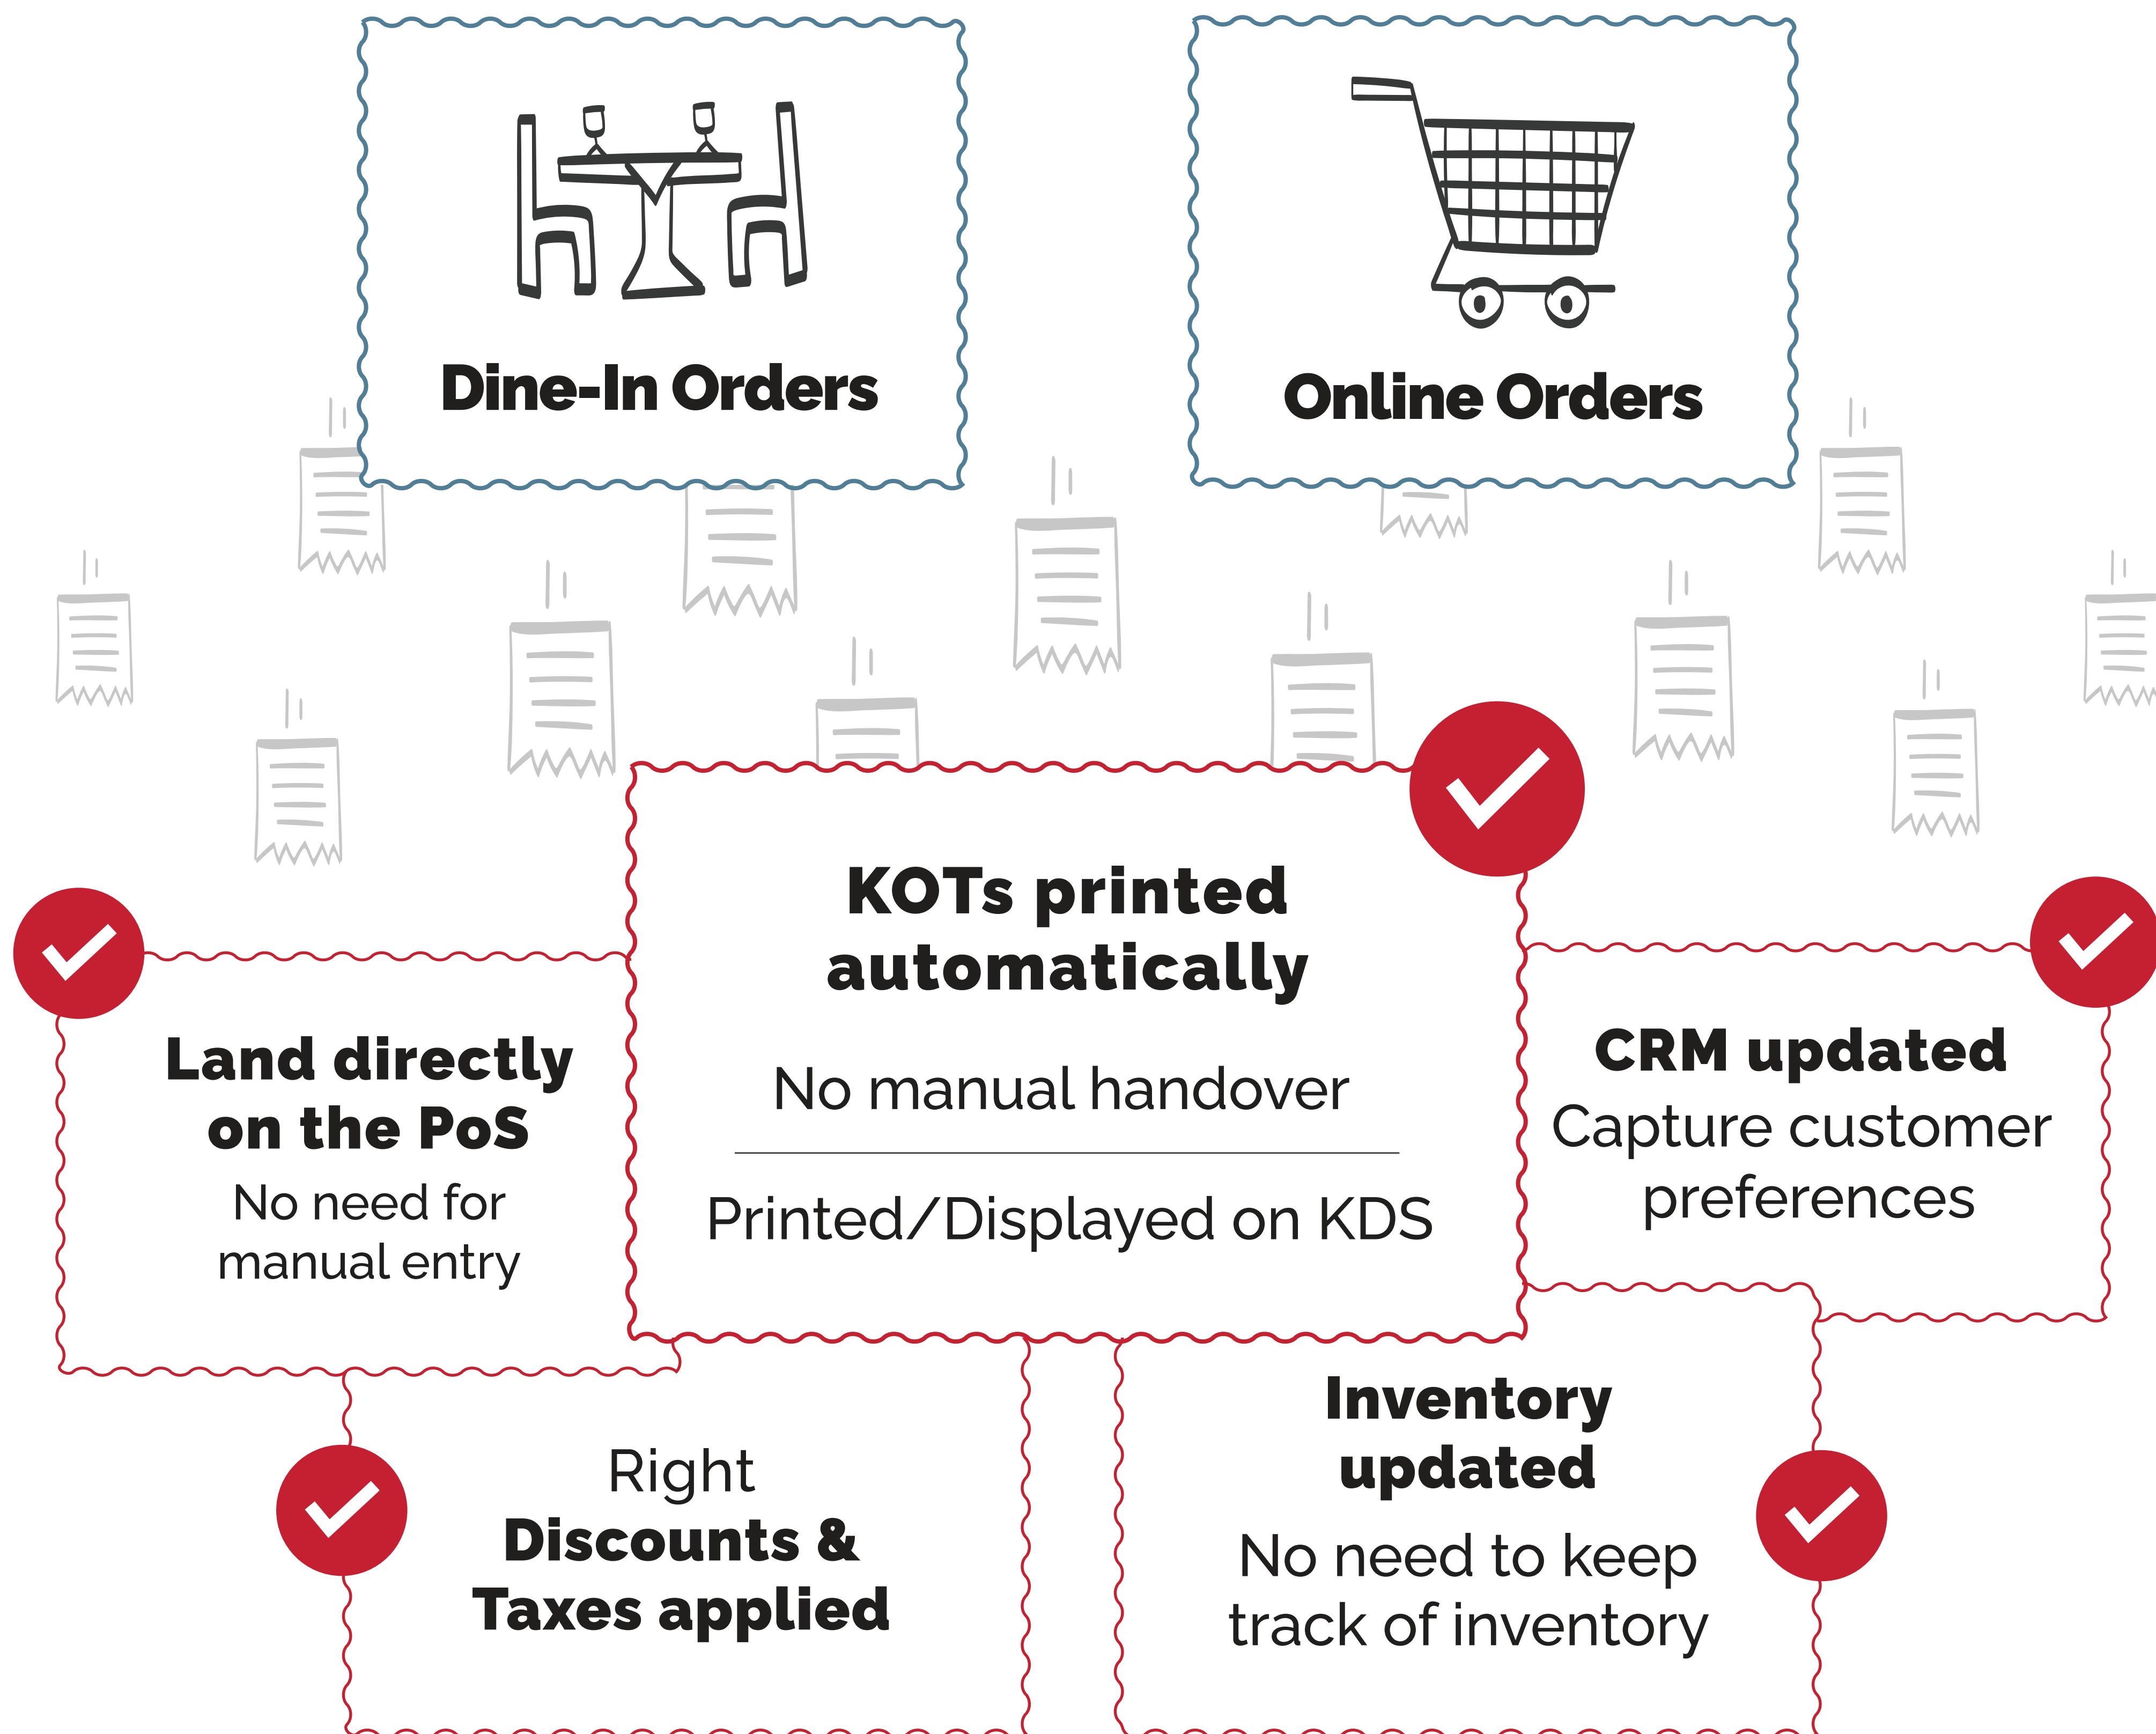

We **simplify** operations & allow you to focus on the things that truly matter.

# Petpooja POS facilitates all aspects of your restaurant's operations

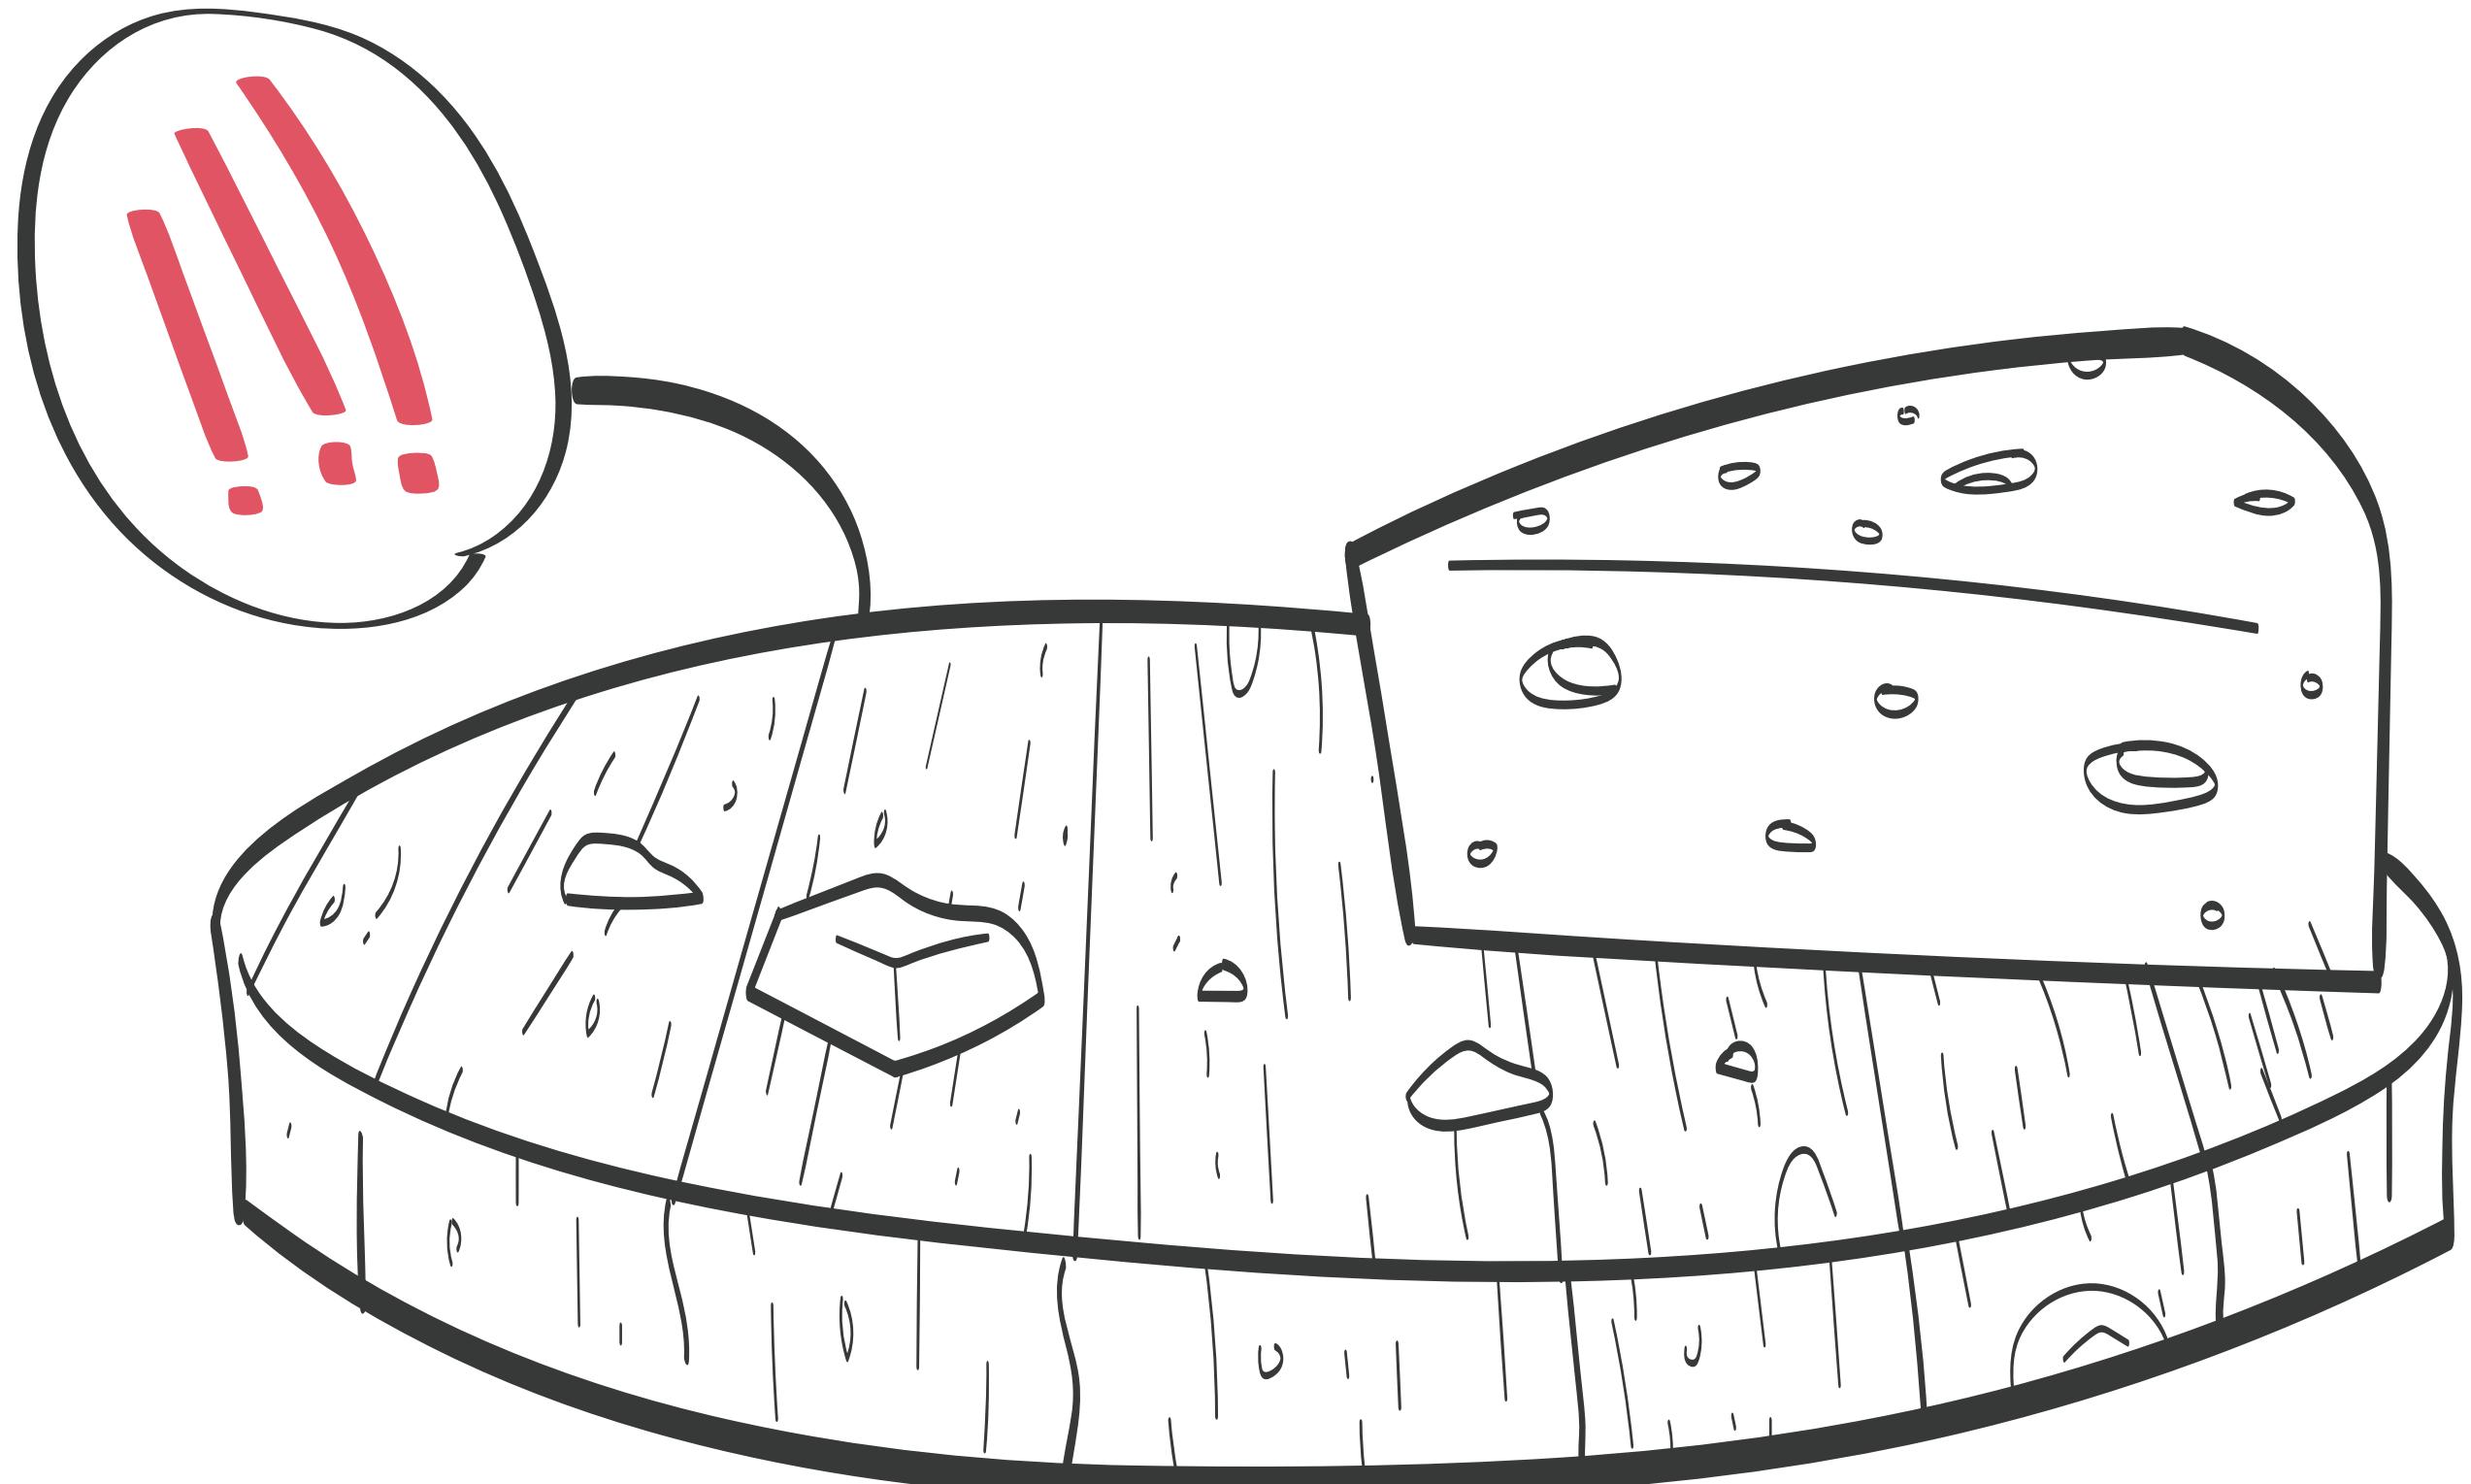

# Your restaurant will run on auto-pilot

All incoming orders are automatically processed with nearly zero manual intervention

Your online menus will update  
**auto-magically** as stock depletes

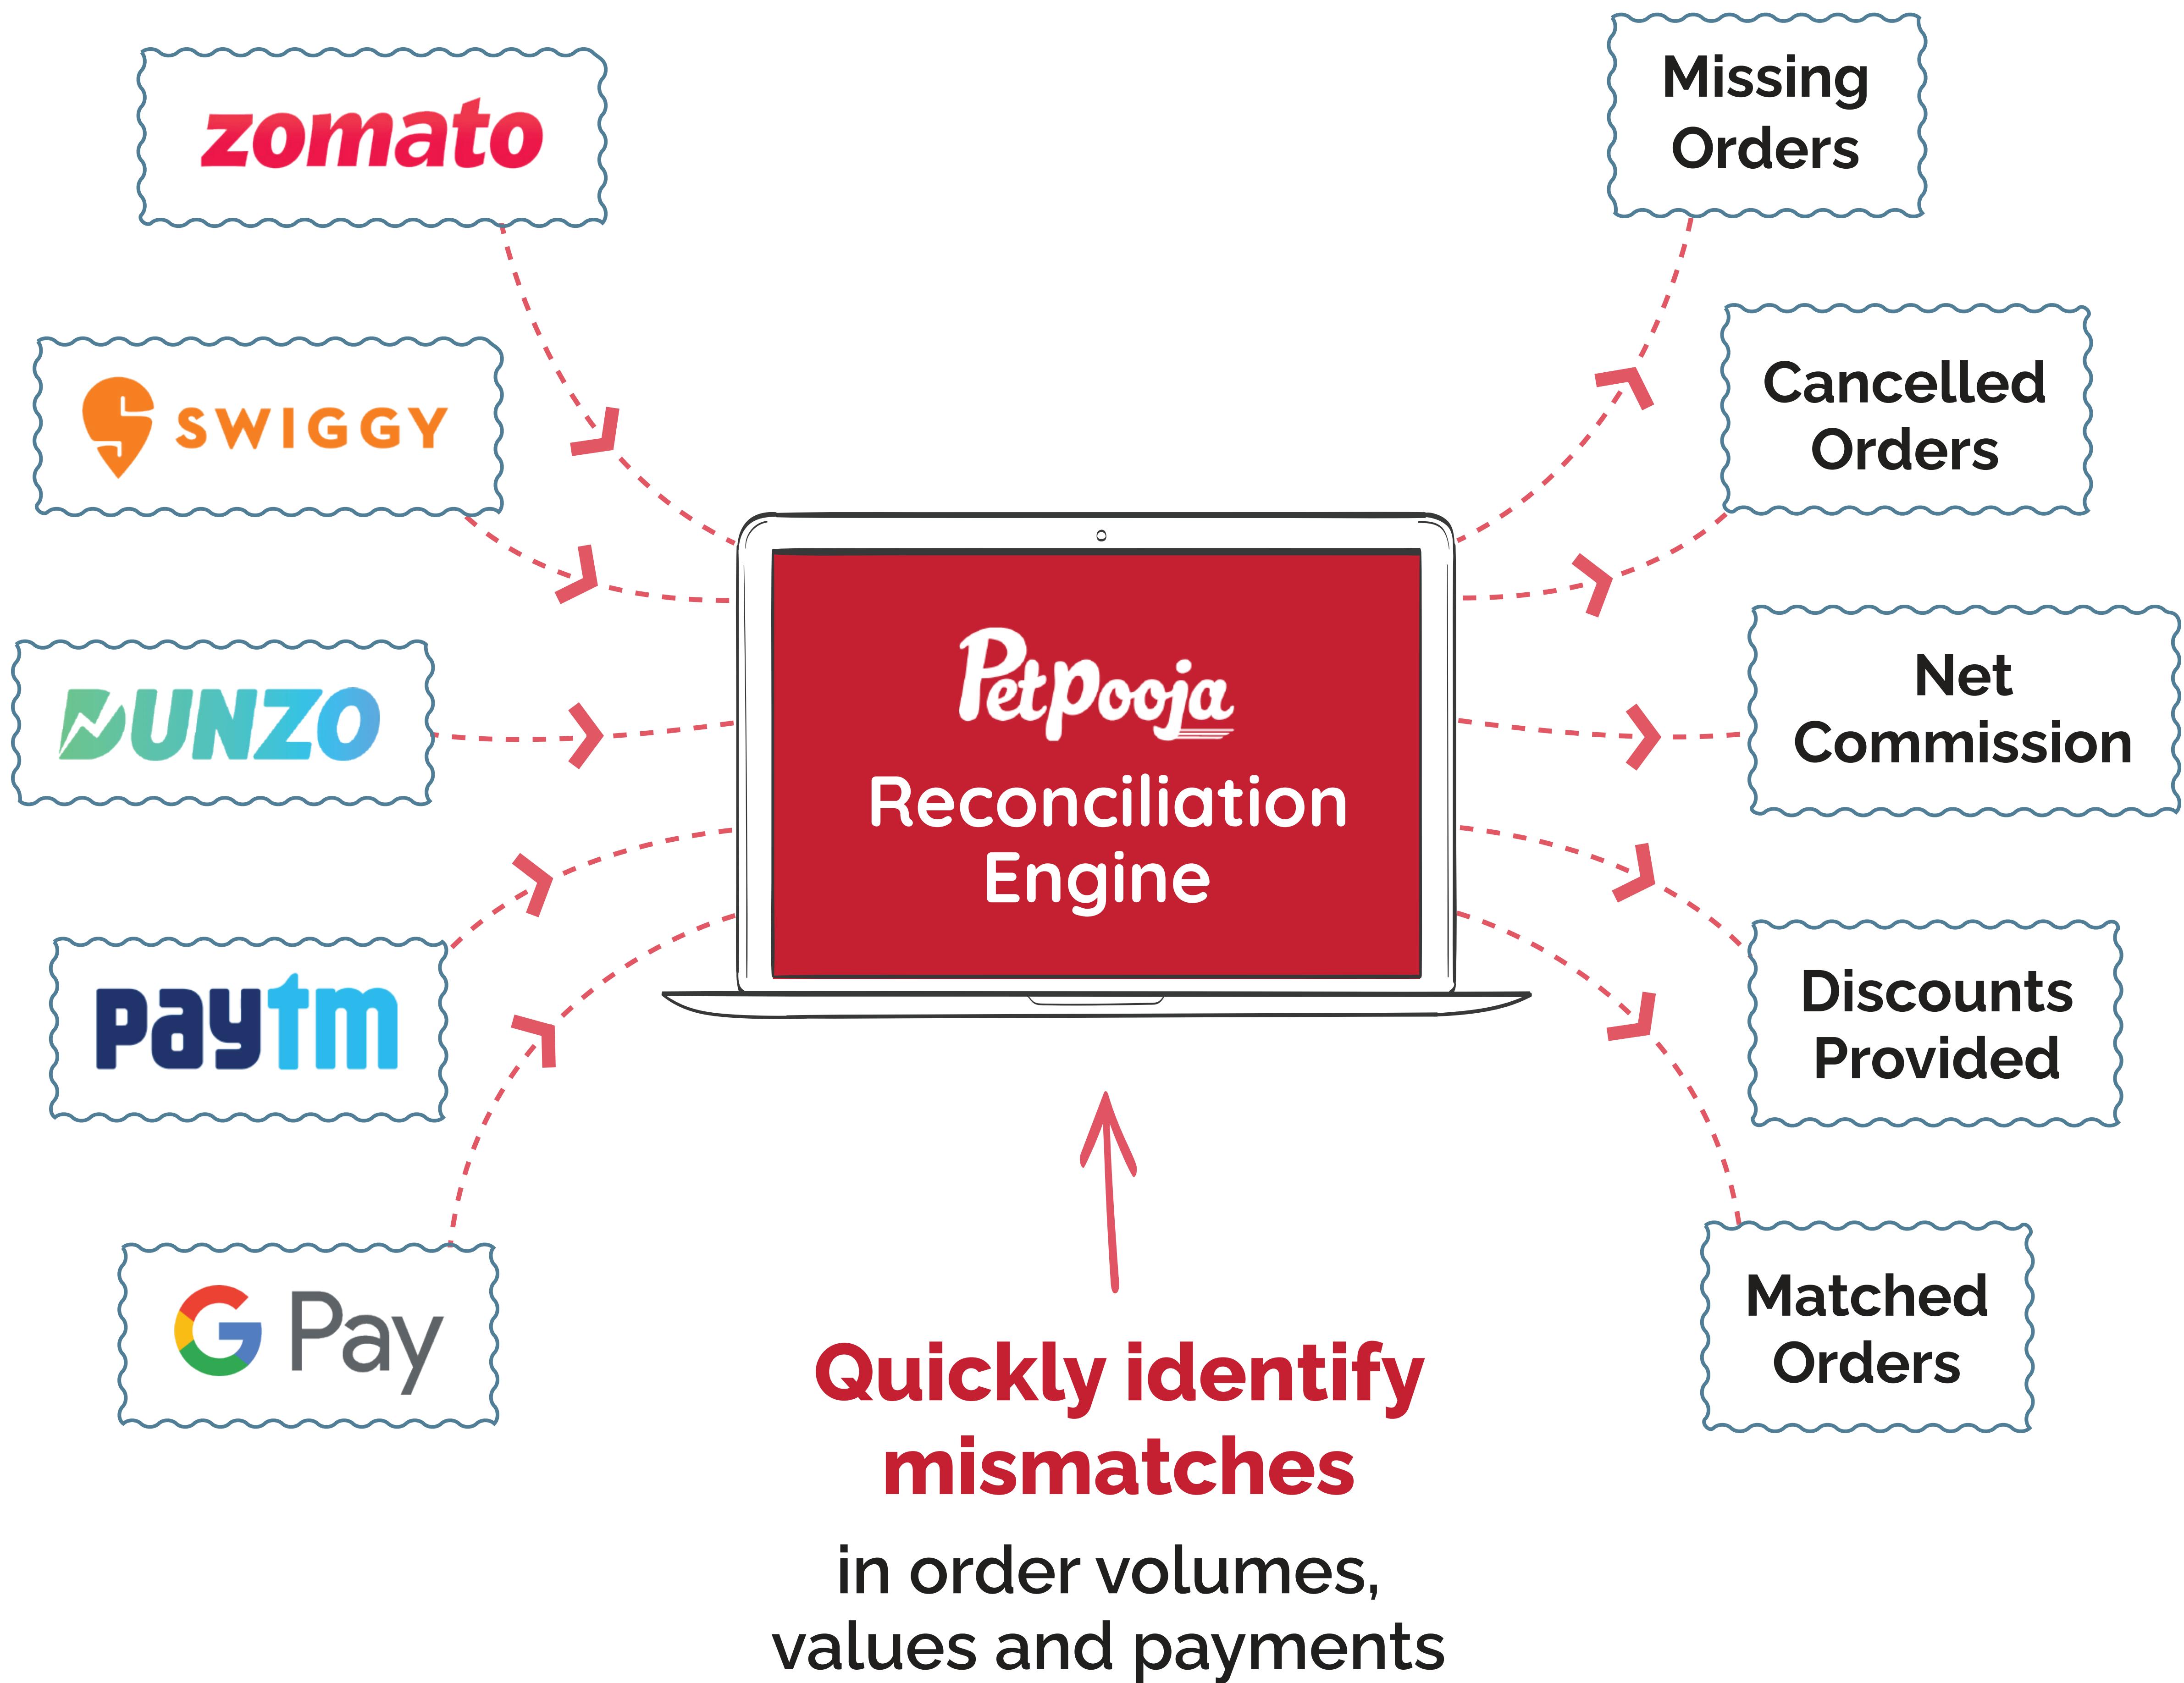

**When you  
run out of  
cheese...**

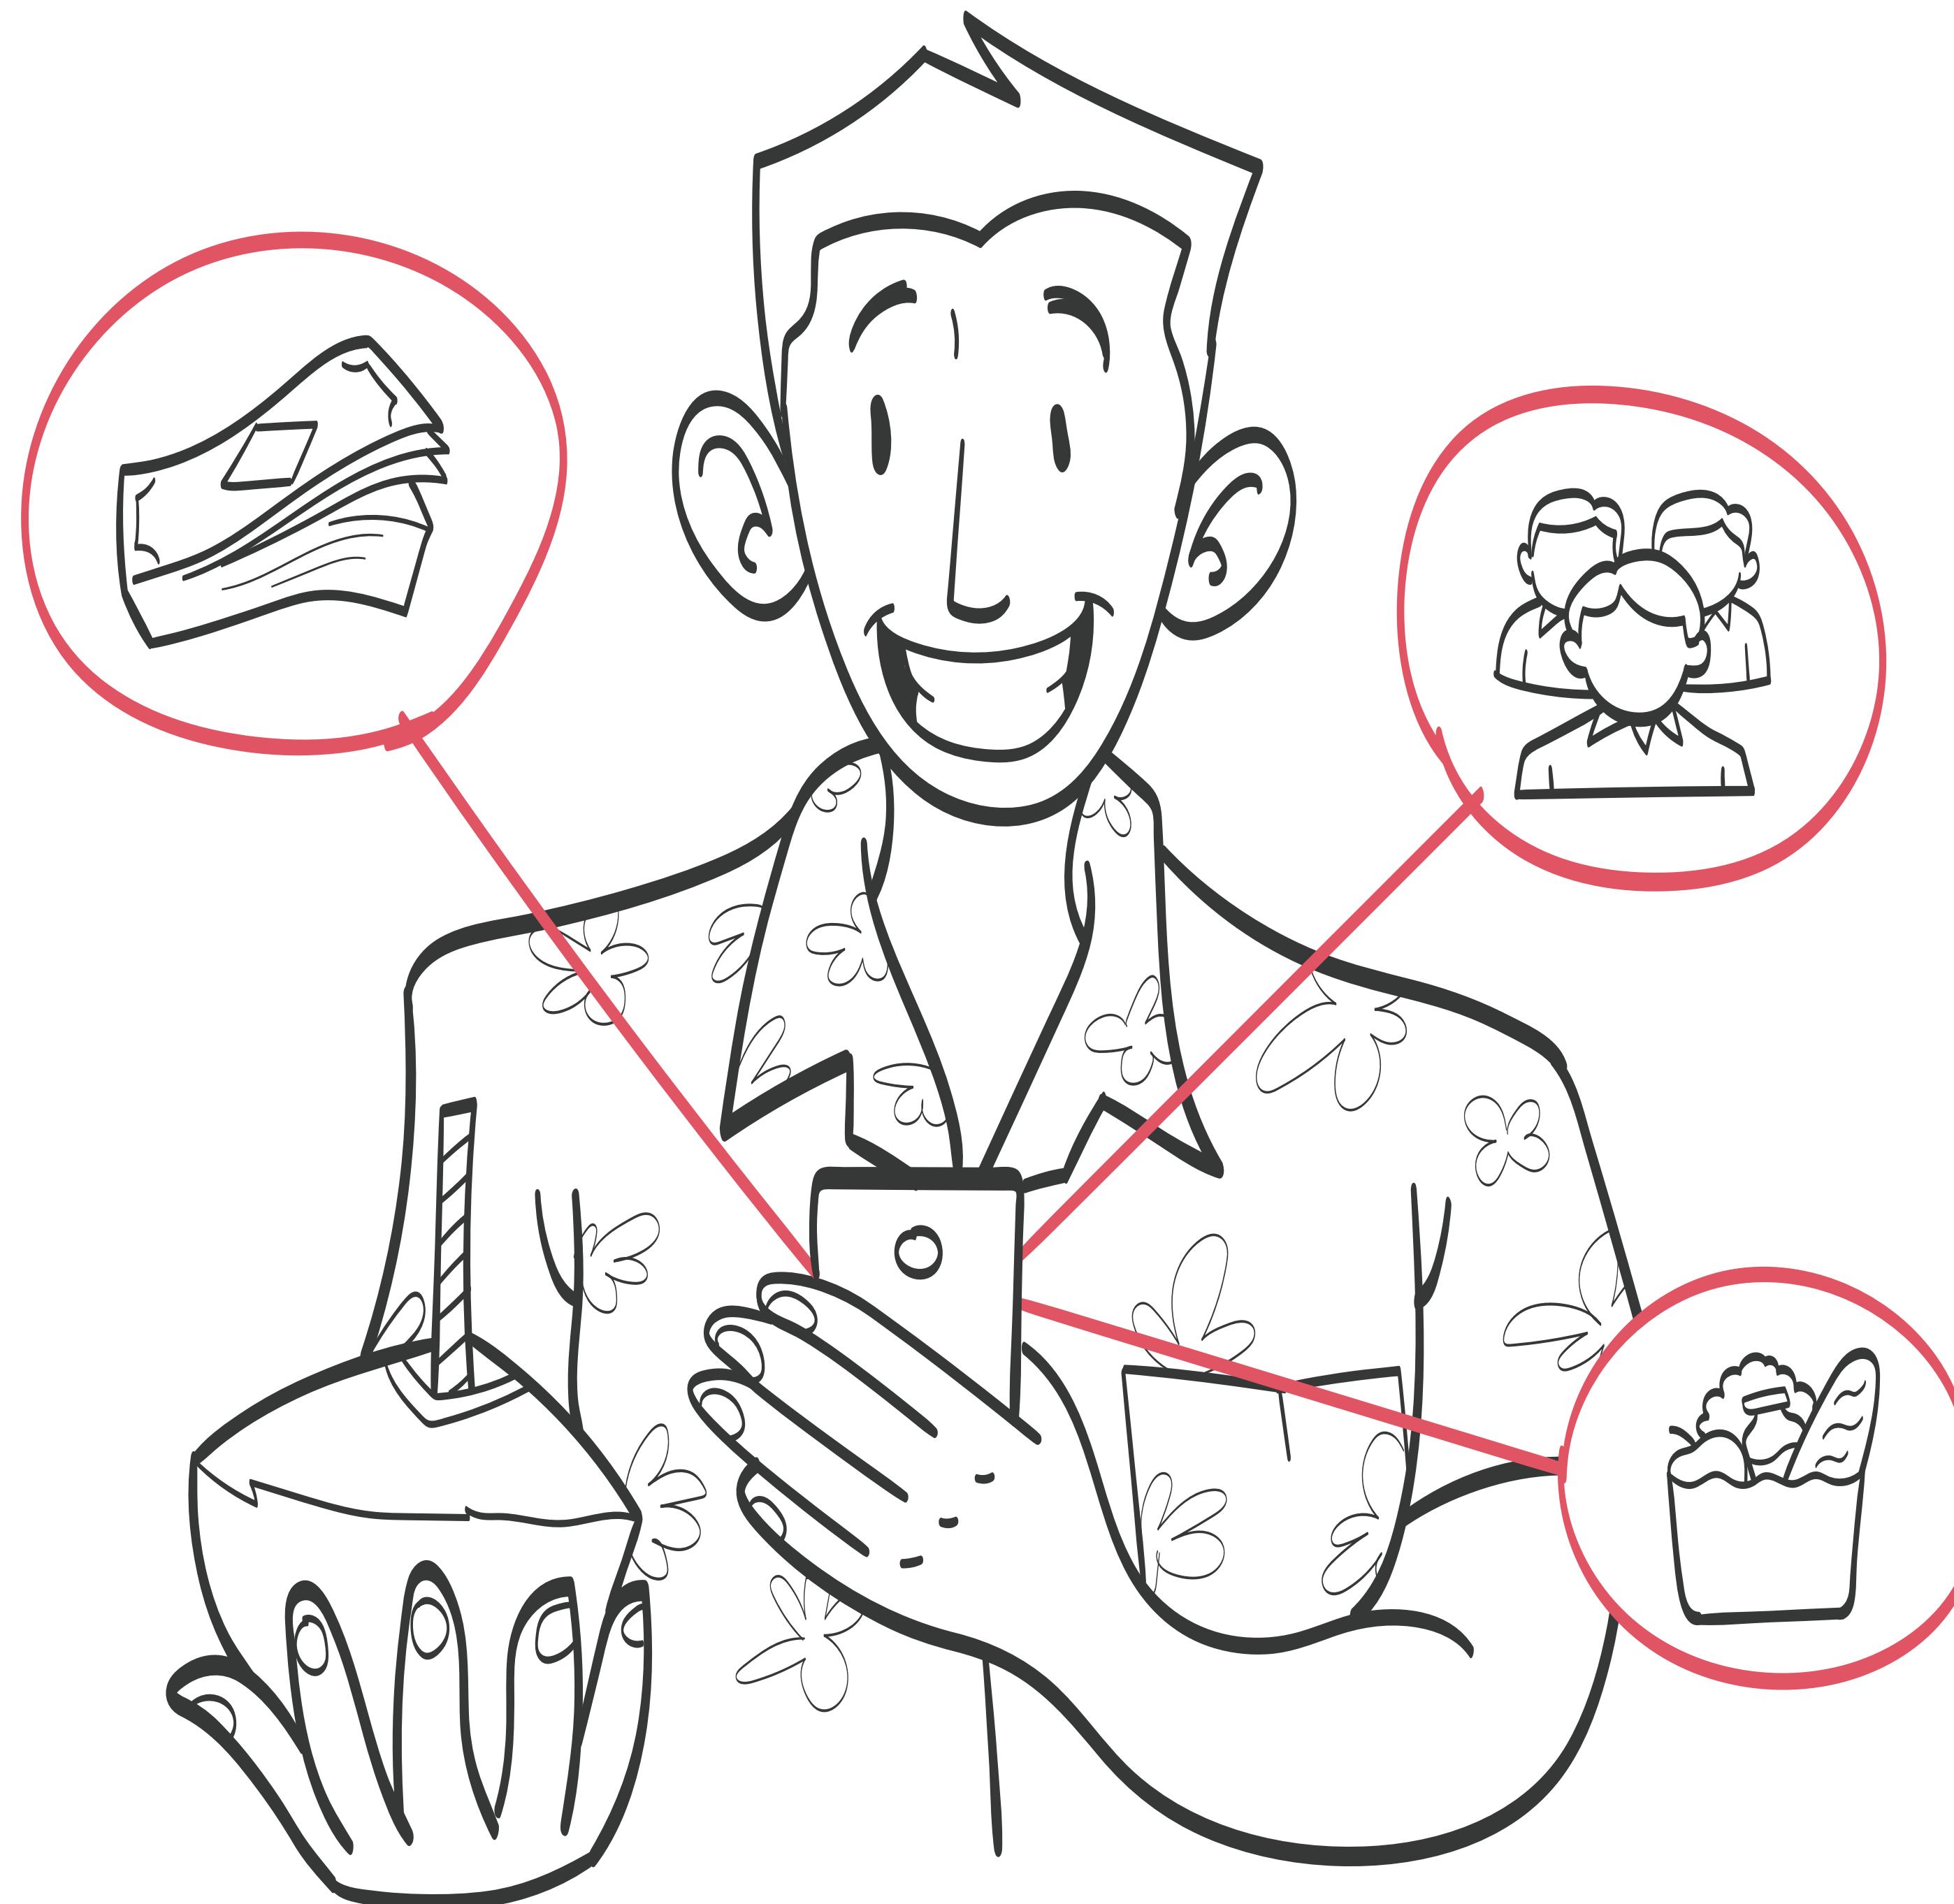

**...Pizzas become  
unavailable on all  
aggregators**

# And your orders will get reconciled **without any Errors**

# Monitor and manage your restaurant **remotely**

**App that gives you complete visibility into each aspect**

- Track your business in real-time
- 50+ Business reports
- Works on any smartphone

Visit your outlets  
only when **you want to**  
Not because **you have to**

# Find exclusive deals on our Suppliers Hub

Find everything from packaging materials to equipments  
from multiple local vendors at the best rates.

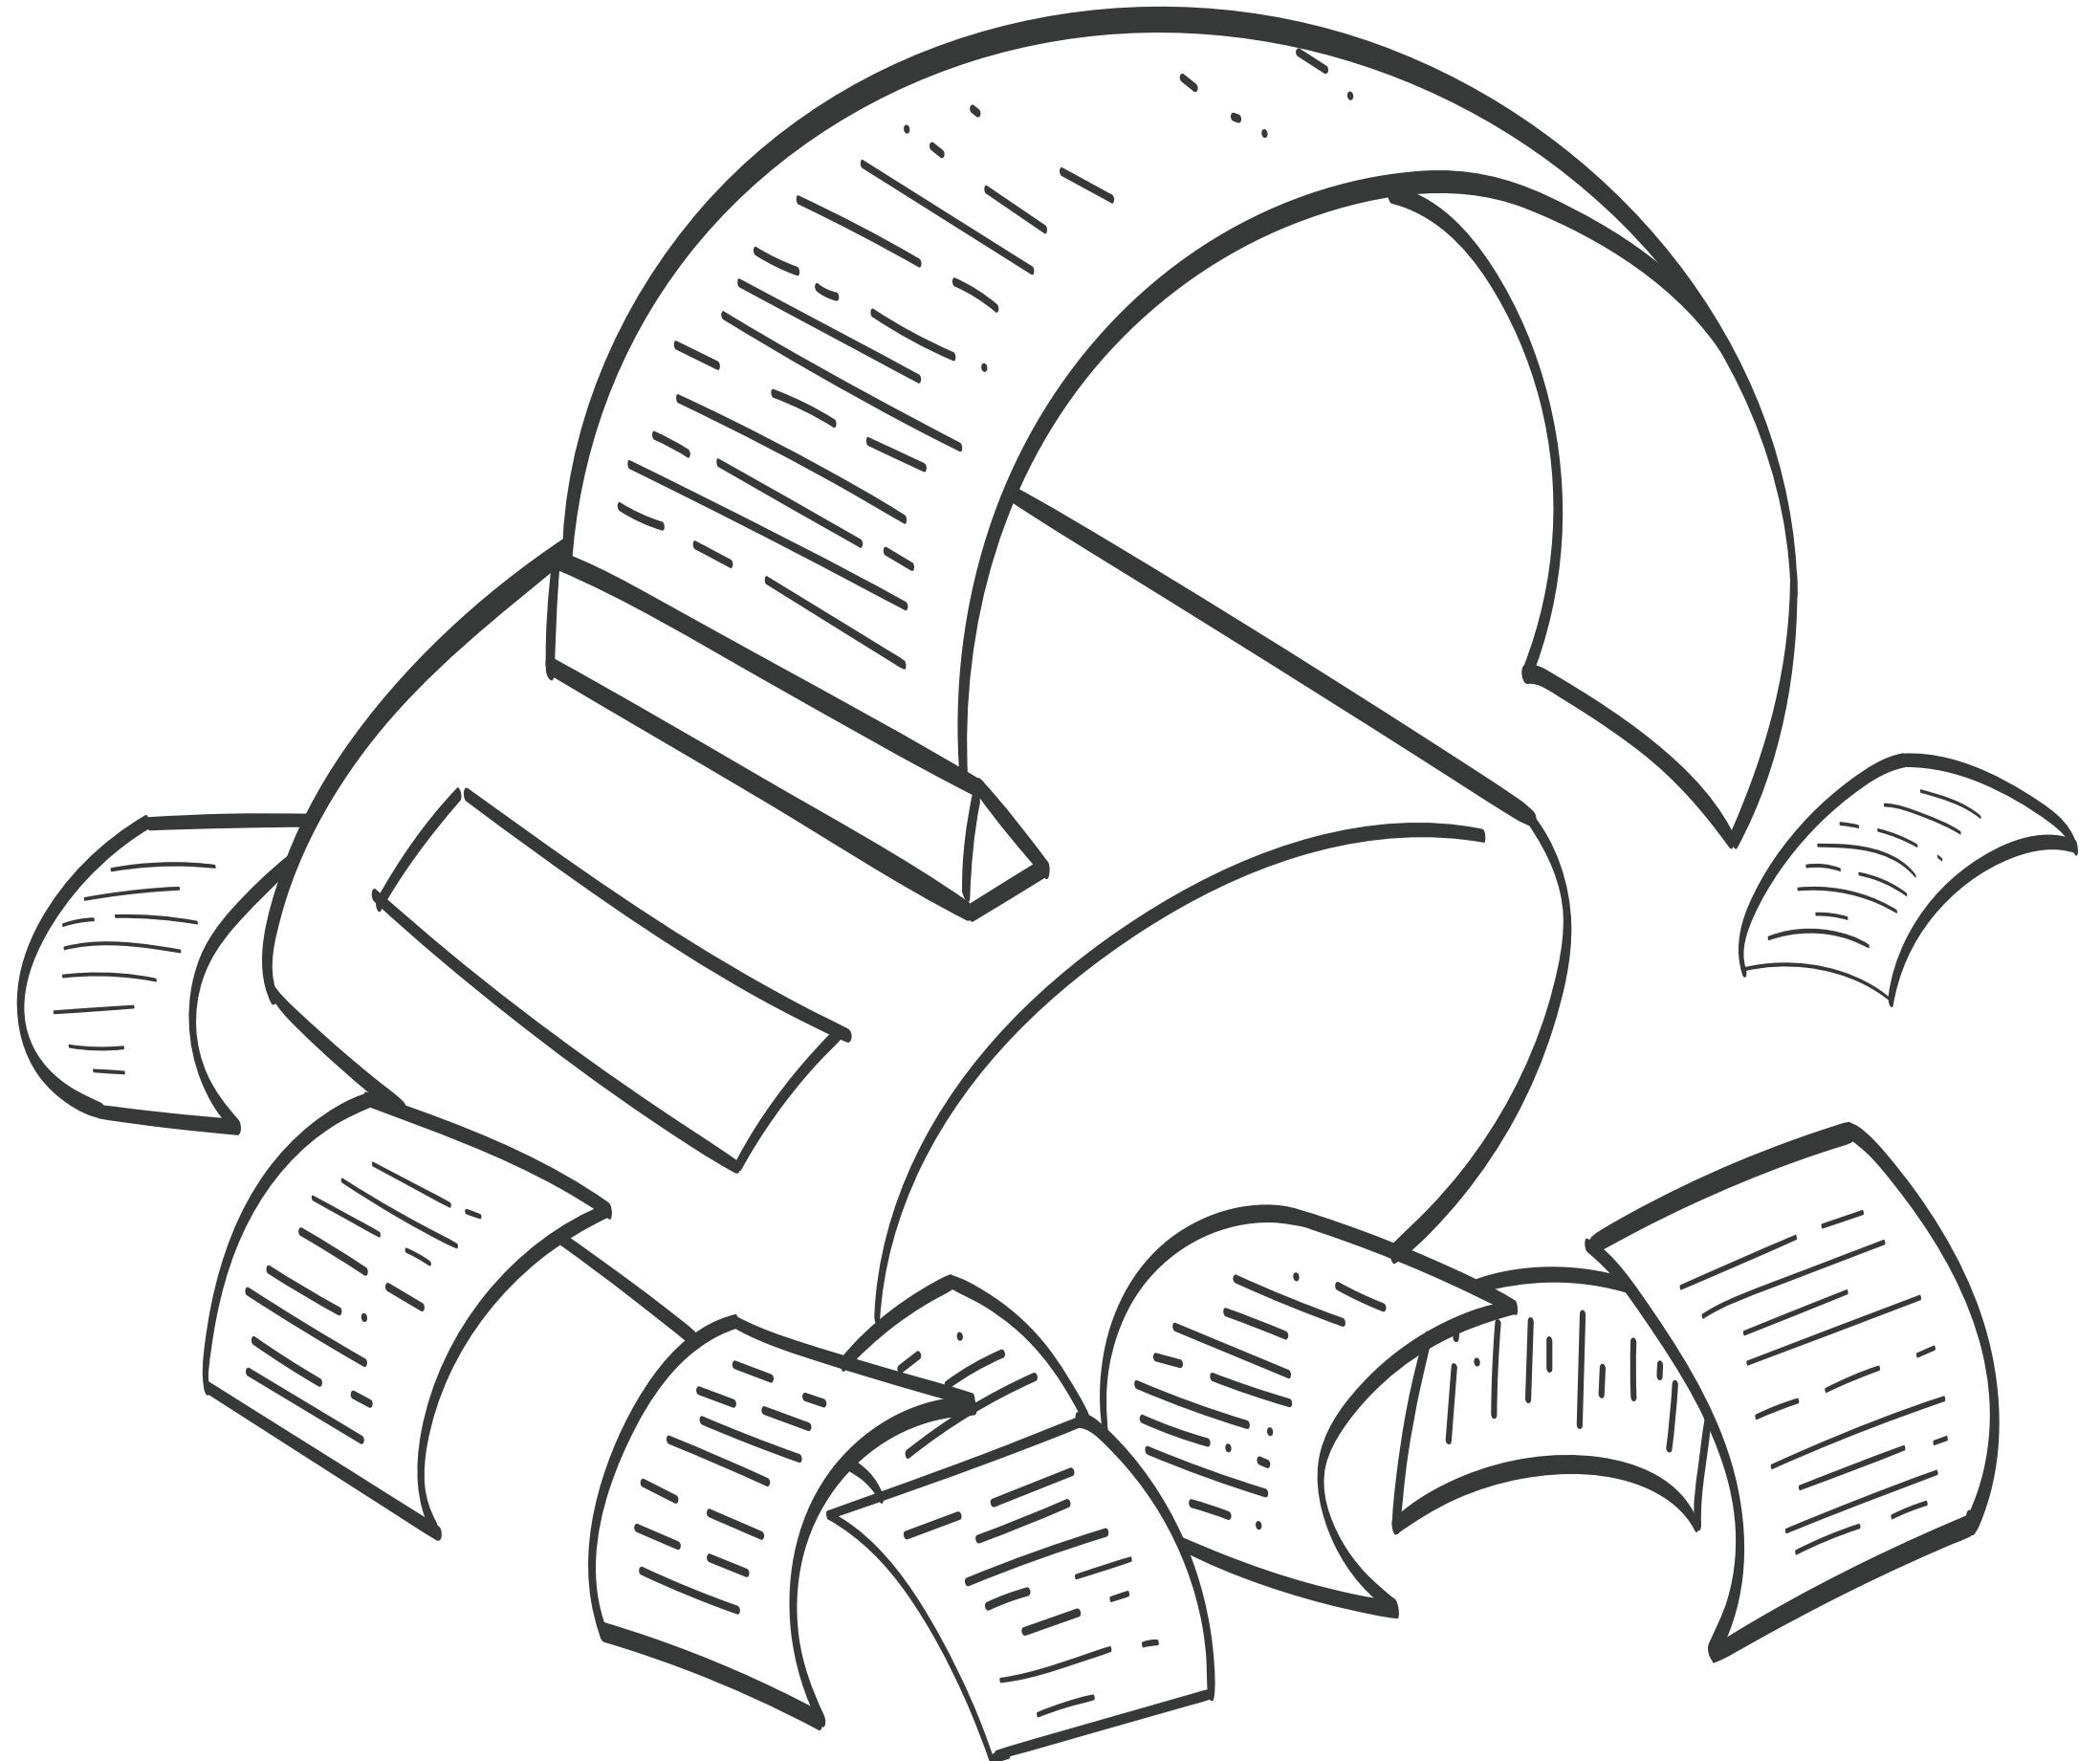

These deals will **save you more money** than the cost of the software, we guarantee it!

# And get **everything** your restaurant needs
